

Kolping University of Applied Sciences is awarded the Erasmus Charter for Higher Education. Kolping University of Applied Sciences cooperates with universities in Germany, Latvia, Poland, Slovakia, Czech Republic, Slovenia, Bulgaria, Cyprus, etc.

In order to come to Kolping University of Applied Sciences within Erasmus+ programme, a student first has to check with his home institutional Erasmus coordinator, whether his home university has an Inter-institutional Erasmus agreement with Kolping University of Applied Sciences.

“ STUDENT FEEDBACK

Karolína Kováčová from Slovakia:

I've been an Erasmus student at Kolping University of Applied Sciences for 5 months but I wish it was for longer. Teachers were extremely friendly, it felt more like a big family than a school. My Erasmus Coordinator was very helpful and I don't think I would've survived without her. I enjoyed lectures and volunteering at the Family centre, where I've met amazing kids and learned a lot from social workers of the Centre. Kaunas and Kolping University of Applied Sciences will be forever in my heart and I'll never forget all these beautiful memories I carry with me.

Michaela Jonášová and Markéta Stárková
from Czech Republic:

It was really nice to be in Erasmus+ internship in Kaunas at Kolping University of Applied Sciences. We improved our English skills, made new friendships, and got to know the life in the new for us country. It was such a pleasure to learn and be here! We tried to see and learn as much as we could during our stay in this friendly place.

Lukas Kačenauskas from Lithuania:

Being abroad in Erasmus+ traineeship I gained new professional experience, made friends with people from other countries also improved my English and Russian language skills. I think international experience is invaluable and students should take advantage of this opportunity.

ABOUT KAUNAS

Kaunas is the second largest Lithuania's city, which keeps the authentic spirit of the country's national character alive. The city is located at the confluence of the two largest Lithuanian rivers, surrounded by the hills and situated at the crossroads of the most important roads in Lithuania. It is a large centre of business and industry. The city is famous for its Interwar architecture, a variety of festivals and events, a great number of museums and theatres, its green streets, tree-lined avenues and wide-open squares.
