

Erasmus+

Kolping University of Applied Sciences has been awarded an Erasmus Charter for higher education for 2021-2027. Kolping University of Applied Sciences (KUAS) welcomes all the exchange students coming to study or/and to have traineeship under the Erasmus+ program. The University offers Bachelor level courses in the English language in Ecotourism, Transport Logistics, Sustainable Business Management, Social Work Management, and Child Welfare and Social Security programs.

STUDENT FEEDBACK

Karolína Kovačová from Slovakia:

I've been an Erasmus student at Kolping University of Applied Sciences for 5 months but I wish it was for longer. Teachers were extremely friendly, it felt more like a big family than a school. My Erasmus Coordinator was very helpful and I don't think I would've survived without her. I enjoyed lectures and volunteering at the Family centre, where I've met amazing kids and learned a lot from social workers of the Centre. Kounas and Kolping University of Applied Sciences will be forever in my heart and I'll never forget all these beautiful memories I carry with me.

Michaela Jonášová and Markéta Stárková from Czech Republic:

It was really nice to be in Erasmus+ internship in Kounas at Kolping University of Applied Sciences. We improved our English skills, made new friendships, and got to know the life in the new for us country. It was such a pleasure to learn and be here! We tried to see and learn as much as we could during our stay in this friendly place.

Monika Grimalauskaitė from Lithuania:

I went to study in Poland under the Erasmus+ programme. I truly enjoyed the lectures at the University of Łódź, as they are characterised by a discussion method and creative tasks. The course is not only about theoretical knowledge but also about practical skills. I had the opportunity to visit a children's daycare centre in Łódź, and a place where food rations and medical assistance are distributed to people who are in need of assistance. It was an excellent opportunity to see how social projects are put into practice and try out the profession I was studying. Although it was a difficult step, today, I am proud of myself for having the courage to go.

ABOUT US

Kolping Higher Education Institution (Kolping HEI) is a private higher education institution, granting Professional Bachelor degrees. Kolping Higher Education Institution was established in 2001. The founder of the Kolping Higher Education Institution is the Lithuanian Kolping Foundation, i.e. a Catholic charity and support organization and Kolping-Bildungswerk Württemberg, Germany.

The words of blessed Adolph Kolping, a great social educator of the 19th century, "If you seek for a better future it is your own responsibility to create it" are the motto of Kolping Higher Education Institution. This Higher Education Institution is supported by the International Kolping Society, which unites around 400,000 members in 60 countries with its center in Cologne, Germany, where the founder of the Society blessed Adolph Kolping began his activities.

ABOUT KAUNAS

Kaunas is the second largest Lithuania's city, which keeps the authentic spirit of the country's national character alive. The city is located at the confluence of the two largest Lithuanian rivers, surrounded by the hills and situated at the crossroads of the most important roads in Lithuania. It is a large centre of business and industry. The city is famous for its interwar architecture, a variety of festivals and events, a great number of museums and theatres, its green streets, tree-lined avenues and wide-open squares.
